**Subject:** SSP2 meeting

Hi Rob,

Could you please send us any materials you plan to present at the SSP2 meeting ahead of time for review? At a minimum, could you send us the GIS layers you are using to look at the data? Last time I asked this, I think you said Marcia would get them to us soon.

A few people will be calling in to the meeting, so I'd like you to either send out your presentation ahead of time or run this meeting as a webinar (in addition to the face-to-face meeting). Please let me know which you prefer. I will make sure a projector is available, and can set up a webinar.

Finally, I received a request to push the meeting start time back to 10. Is that okay? We'll try to finish by noon, but may run over.

Thanks,  
Stephanie
